

# UNITED STATES DEAF GOLF ASSOCIATION

www.usdeafgolf.org   

Dear friend of the USDGA,

The United States Deaf Golf Association (USDGA) will host their 12th United States Deaf Golf Championships (USDGC) tournament during July 9th - 13th, 2023 at Northwood Golf Club in Rhinelander, Wisconsin. The top qualifiers will earn their spot on the USA Team to compete in Australia in 2024.

USDGA was established in 1997 to promote the active participation of golf by individuals who are deaf and hard of hearing. Biennially, they host championships tournament around the United States not only by creating a competitive golf game for members but establishing a friendly environment for socialization and activities to benefit the deaf and hard of hearing community. In addition, USDGC is the qualifying tournament for top deaf and hard of hearing golfers representing the United States of America team when competing at the World Deaf Golf Championships (WDGC) tournament.

New in 2023, we will be hosting 2 separate tournaments in one setting at the same time, one designated for the competitive golfers and one for recreational golfers from all over the United States. This newly formed dual tourney format is expected to attract hundreds of golfers, board members, volunteers, their family members, and fans from around the nation.

The city of Rhinelander has also provided a proclamation to recognize this event.

We are seeking sponsorships to help us underwrite some of our largest expenses associated with hosting such an event. USDGA is a registered 501(c)(3) nonprofit organization and your donation will be qualified as 100% tax deductible. Sponsorship categories are attached.

The USDGA will appropriately recognize your contribution. You and your company/organization will be recognized in several ways such as on our website, in print and at the banquet. Should you have any additional recognition requests, we will be happy to work with you on this.

USDGA is excited about those upcoming tournaments and your support will promote making golf tournaments culturally inclusive for deaf and hard of hearing golfers.

We truly appreciate your consideration in making a positive difference for us.

Sincerely,

Paul Rutowski, Chair
